### 10 examples of circular economy solutions

10. May 2018 Nina-Zingg Interesting links (0)

In this interesting article you can find 10 solutions to switch from linear to circular economy. They mention different ideas for everyday commodities for example a circular travel or cloth solution. If you want to look at the other ideas/solutions [click here](#).

The article is written by a group who is called "State of Green". They are part of the climate consortium of Denmark. I think this is a reliable resource.
